COVER LETTER

Dear Capgemini,

I am excited to apply for the Graduate Program at Capgemini, an opportunity that aligns perfectly with my passion for technology and my academic and professional journey. As a recent IT graduate from the University of Technology Sydney, I have honed my skills in software development, particularly in front-end development, and possess a deep understanding of enterprise system design.

My internship at LUXIT as a Frontend Software Engineer Intern allowed me to develop user interfaces, demonstrating my technical proficiency and ability to work collaboratively with cross-functional teams. Additionally, my experience as an Infantry Soldier and a Receptionist has equipped me with exceptional leadership, problem-solving skills, and a customer-centric approach.

I am particularly drawn to Capgemini's innovative and supportive work environment, as well as its commitment to learning and development. I am eager to contribute to diverse, high-impact projects and to grow within the dynamic field of IT consulting. My background and strengths align closely with Capgemini's values, and I am enthusiastic about the prospect of being part of a company that values teamwork, innovation, and social responsibility.

Thank you for considering my application. I look forward to the opportunity to discuss how I can contribute to the success of Capgemini's Graduate Program.

Sincerely,

Sanghyeon Park
