Passionate IT Graduate from the University of Technology Sydney, specializing in Enterprise System Development. Experienced in software development, including web application development and system integration. Proficient in multiple programming languages and eager to contribute to innovative projects at Google.

## Skills

---

- **Programming Languages:** Python, JavaScript, Java, C#, HTML, CSS, TypeScript, PHP
- **Technologies:** .NET, Django, Spring, React, Node
- **Databases:** MySQL, MSSQL, MongoDB
- **Environments:** Unix/Linux, Distributed and Parallel Systems
- **Additional Skills:** Machine Learning, Information Retrieval, Natural Language Processing, Networking, Security Software Development

## Experiences

---

### Web Developer

February 2023 - March 2024

#### LUXIT Beauty Concierge

- Designed and implemented user-facing features, improving user experience through HTML, CSS, and JavaScript.
- Collaborated with cross-functional teams, including UI/UX designers and backend engineers, to ensure seamless integration of front-end and server-side components.
- Applied agile methodologies and version control systems to manage and deliver high-quality software solutions within deadlines.

#### UTS Cryogenic Wiring GUI

##### Frontend Developer

Aug 2023 - Nov 2023

- Developed a web application using React and TypeScript to visualize and manage cryogenic wiring configurations for UTS Research team
- Implemented dynamic data visualization features, enhancing the usability and functionality of the application.
- **GitHub:** [UTS Cryogenic Wiring](#)

#### Restaurant Management System

##### Database Administrator

Aug 2023 - Nov 2023

- Developed and deployed a restaurant management system with various features for customers, staff, and managers.
- Designed and implemented the database schema using MySQL to ensure efficient data storage and retrieval.
- **GitHub:** [Restaurant Management System](#)

#### Store Management System

##### C# Developer

Aug 2023 - Nov 2023

- Developed a robust and user-centric application using C#, .NET to cater the operational needs of modern convenience stores.
- Implemented key features such as inventory management, sales tracking, and reporting, enhancing store efficiency.
- **GitHub:** [Store Management System](#)

## Education

---

### Bachelor of Science in Information Technology with Distinction

#### University of Technology Sydney

March 2021 – Feb 2024

**Major:** Enterprise System Development

**Sub Major:** Business Information System Management
